Nov. 23-25, Thurs., Sat..**Thanksgiving holidays; no classes.**

Dec. 8, Friday.....**Feast of the Immaculate Conception. University holiday.**

Dec. 21, Thursday.....Christmas holidays begin after last scheduled class.

1951

Jan. 3, Wednesday.....Classes resumed.

Jan. 17, Wednesday.....**Fall Semester examinations begin.**

Jan. 23, Tuesday.....Fall Semester ends.

Jan. 24, Wednesday.....No classes.

Jan. 25, Thursday.....No classes.

N.B. During the course of the scholastic year 1950-1951 every Catholic student is expected and obliged to attend a week-end recollection.

SPRING SEMESTER

Jan. 26, Friday.....Registration of new students. No classes.

Jan. 27, Saturday.....Fee for late registration for Spring Semester.

Jan. 29, Monday.....Spring Semester classes and lectures begin.

Feb. 3, Saturday.....Latest date for registration or schedule adjustment.

Feb. 5-6, Mon.-Tues.....Carnival holidays.

Feb. 10, Saturday.....1:00 P. M. to 5:15 P. M.—Examinations for removal of conditions incurred in Fall Semester.

March 1, Thursday.....Latest date for official withdrawal from courses.

March 15, Thursday.....Mid-semester examinations begin.

March 21, Wednesday.....Easter holidays begin after Day Classes. No Night Classes.

March 27, Tuesday.....Classes resumed.

April 21, Saturday.....Theses due in final form from candidates for degrees to be conferred in June, 1951.

May 3, Thursday.....Ascension Thursday. University holiday.

May 28, Monday.....Final examinations begin.

June 1, Friday.....Distribution of Awards, 8:00 P. M.

June 3, Sunday.....Baccalaureate Services.

June 4, Monday.....Commencement Exercises, 8:00 P. M.

June 15-16, Fri.-Sat.....Summer School Registration.

N.B. During the course of the scholastic year 1950-1951 every Catholic student is expected and obliged to attend a week-end recollection.

LOYOLA UNIVERSITY

Founded in 1912

Member of the Southern Association of Colleges and Secondary Schools.
Member of the National Catholic Educational Association.
Member of the Jesuit Educational Association.
Member of the Association of American Colleges.

BOARD OF DIRECTORS OF THE UNIVERSITY

Rev. Thomas J. Shields, S.J., A.M., S.T.L., *President*
Rev. A. William Crandell, S.J., A.M., *Vice-President*
Rev. John J. Fuss, S.J., A.M., *Secretary*
Rev. Theodore A. Ray, S.J., A.M., *Treasurer*
Rev. William D. O'Leary, S.J., A.M., M.D.

OFFICERS OF ADMINISTRATION

Rev. Thomas J. Shields, S.J., A.M., S.T.L., *President*

Rev. A. William Crandell, S.J., A.M., *Dean*

Rev. Ernest J. Burrus, S.J., A.M., *Associate Dean*

Rev. Anthony C. O'Flynn, S.J., A.M., S.T.L., *Dean of Men, Supervisor of Athletics*

Rev. John J. Fuss, S.J., A.M., *Secretary*

Rev. Theodore A. Ray, S.J., A.M., *Treasurer*

Stephen W. Vasquez, B.S., C.P.A., *Director of Evening Division*

Rev. Samuel H. Ray, S.J., A.M., S.T.D., *Student Counsellor*

Colonel Andrew B. Padgett, Inf., CMP, *Commandant of University R.O.T.C.*

Miss Margaret E. Carey, *Registrar Emerita*

Miss Carmel V. Discon, A.M., *Registrar*

James W. Dyson, A.M., B.S. in L.S., *Librarian*

James E. Kalshoven, A.M., *Director of Public Relations*

Alfred J. Bonomo, A.M., LL.M., LL.D., *Director of Radio Educational Programs*

John L. Kron, B.S., M.D., *University Physician*

Guy J. Knobloch, *Bursar*

Miss S. Dorothy Thompson, *Veterans' Counsellor*

FACULTY OF THE
DEPARTMENT OF MEDICAL TECHNOLOGY

John G. Arnold, Jr., A.M., Ph.D. Chairman of Deparment and Director of Academic Training

A. B., Ohio State University, 1930; A.M., Wesleyan University, 1932; Ph.D., New York University, 1934.

Assistant Parasitologist, 1931-1932; Biological Survey, New York State Conservation Department.

Graduate and Research Assistant, Wesleyan University, 1931-1932; Teaching Fellow, New York University, 1932-1934; Instructor, summer of 1934, College of the City of New York; Professor of Biology and Chairman of the Department, Loyola University, 1934—; Chairman, Department of Medical Technology, Loyola University, 1935—. Clinical Pathologist, LaGarde General Hospital, U. S. Army, 1942-43; Commanding Officer, First Malaria Survey Unit, Guadalcanal, 1943-44.

Membership in Learned Societies: The American Association for the Advancement of Science; The American Society of Parasitologists; Catholic Round Table of Science; The American Microscopic Society; The New Orleans Academy of Sciences; New Orleans Botanical Society; Beta Lambda Sigma, New York University Honorary Biology Society; Sigma Xi; Theta Beta, National Honor Biology Society; Blue Key, National Honor Service Fraternity; National Catholic Educational Association; Beta Epsilon Upsilon· Agramonte Pre-Medical Society; Delta Epsilon Sigma; Gamard, Pre-Dental Society.

Major Field of Research: Parasitology.

Paul F. Bailey, M. S. Professor of Chemistry

B. S., Loyola University, 1926;M. S. ibid., 1940; Professor of Chemistry, Jesuit High School, 1926-1928; Assistant Professor of Chemistry, Loyola University, 1930-1942; Associate Professor, ibid. 1942-1945; Professor, ibid. 1945-

Membership in Learned Societies: New Orleans Academy of Sciences; American Chemical Society; Fellow—American Institute of Chemists; Theta Beta, National Honor Biology Society; Catholic Round Table of Science; National Geographic Society; The American Association for the Advancement of Science; Blue Key, National Honor Service Fraternity; Beta Epsilon Upsilon; Agramonte Pre-Medical Society.

Major Field of Research: Chemistry.

Rev. Martin P. Burke, S.J., Ph.D., S.T.D. Professor of Philosophy and Chairman of the Department

A. B., St. Louis University, 1906; A.M., ibid., 1907; Ph.D., Gregorian University, Rome, 1924; S.T.D., Woodstock, 1916.

Teacher, Old Jesuit High School, 1907-1909, 1916-1917; Professor, Springhill College, 1909-1912, Professor and Chairman of the Philosophy Department Loyola University, 1918—.

Membership in Learned Societies: Catholic Philosophical Association.

Major Field of Research: Philosophy.

Gerald J. Eberle, A.M., Ph.D. Professor of English

A.B., St. Norbert College, 1934; A.M., University of Wisconsin, 1936; Ph.D., ibid., 1945.

Instructor, St. Norbert College, 1934-1935; Instructor of English, Loyola University, 1936-1938; Assistant Professor of English, ibid., 1939-1945; Associate Professor of English, ibid., 1945-1949; Folger Shakespeare Library Research Fellow, 1946-1947; Professor of English, Loyola University, 1949—.

Membership in Learned Societies: National Council of Teachers of English; Modern Language Association of America; Bibliographical Society of London; Modern Humanities Research Association; Malone Society; Bibliographical Society of the University of Virginia.

Major Field of Research: Elizabethan Drama and Bibliography.

Rev. George A. Francis, S.J., A.M., Ph.D. Professor of Chemistry and Chairman of the Department

A.B., Woodstock College, 1918; A.M., St. Louis University, 1919; Ph.D., Fordham University, 1922.

Teacher, College of the Immaculate Conception, 1912-1914; Professor and Chairman of the Chemistry Department, Loyola University, New Orleans, 1923—.

Membership in Learned Societies: American Chemical Society; New Orleans Academy of Sciences.

Major Fields of Research: Biochemistry and Organic Chemistry.

James Amedée Gaudet, M.D. Professor of Medical Technology

Student Assistant in Anatomy, Department of Dentistry, Tulane University, 1919-1920, Student Assistant in Neurology, Tulane University, 1920; Director of Clinical Pathology, James T. Nix, Clinic, 1922—.

Membership in Learned Societies: Fellowship, American Medical Association, 1923-1933, Southern Medical Association, 1923-1930; American Medical Association, 1923-1935; Orleans Parish Medical Society, 1923-1933; Louisiana State Medical Society, 1923-1933; Theta Beta, National Honor Biology Society.

Major Field of Research: Clinical Pathology.

Ralph Milo Hartwell, M.D. Professor of Medical Technology, Director of Hospital Training

St. Vincent's Hospital, Sioux City, Iowa R. N. 1931; University of South Dakota, 1931-33; Louisiana State University Medical Center, 1933-37, M.D.

Interneship and Residency, Ohio State University, 1937-40; Instructor, Department of Pathology, Ohio State University, 1937-1942; Assistant Professor, Department of Pathology, Ohio State University, 1942-1948; Clinical Assistant Professor, Louisiana State University, School of Medicine, 1948—; Director of Laboratories, St. Francis Hospital, Columbus, Ohio, 1940-1946; Director of Laboratories, Grant Hospital, Columbus, Ohio, 1942-1948; Director of Laboratories, Hotel Dieu, 1948—.

Membership in Learned Societies Certified by American Board of Pathology in Clinical Pathology and Pathologic Anatomy, 1942; American Society of Clinical Pathologists; American Association of Pathologists and Bacteriologists; Fellow of the College of American Pathologists; Orleans Parish Medical Society; Louisiana State Medical Society; Fellow of the American Medical Association; Member A. A. A. S.

Major Field of Research: Pathology.

George Hauser, M.D. Professor of Medical Technology, Director of Hospital Training

M.D., Tulane University, 1915.

Interneship, Charity Hospital, 1916-1917; City and State Board of Health, Assistant Bacteriologist and Pathologist 1917; Pathologist, Charity Hospital, 1924-1928; Pathologist, Illinois Central Hospital 1919-1923; Director and Pathologist, Mercy Hospital, 1924—; Assistant Coroner, 1924-1928; Private Laboratory, 727 Audubon Building, 1918—; Active Staff, Mercy Hospital and Hotel Dieu; Professor of Bacteriology and Pathology, Loyola Post Graduate School of Medicine; Bacteriology and Laboratory Technique; Mercy Hospital Nursing School.

Membership in Learned Societies: American Medical Association; Louisiana State Medical Society; Orleans Parish Medical Society; Southern Medical Society; American Society of Clinical Pathologists; Alpha Omega Alpha, Stars and Bars.

Major Field of Research: Clinical Pathology.

Ambrose J. Hertzog, M. D. Professor of Medical Technology Director of Hospital Training

B. S., Springhill College, 1928; M. D., Tulane University, 1932; M. S., University of Minnesota, 1937; Ph. D. ibid, 1938.

Interneship, Touro Infirmary, 1932-33; Fellow in Pathology, Mayo Clinic, Rochester, 1934-36; Teaching Fellow in Pathology, University of Minnesota, 1936-38; Pathologist, Luther Hospital, Eau Claire, Wisconsin, 1938-42; Pathologist, St. Barnabas Hospital, Northwestern Hospital and Minneapolis General Hospital, Minneapolis, 1942-48; Assistant Professor of Pathology, University of Minnesota, 1942-48; Pathologist, Touro Infirmary, 1948—.

Membership in Learned Societies: Diplomat, American Board of Pathology; American Association of Pathologists and Bacteriologists; American Society of Clinical Pathologists; Louisiana State Medical Society; American Medical Association.

Major Field of Research: Pathology and Hematology.

Mark Daniel Horne, A.M., Ph.D. Professor of English

Ph.B., Loyola University, 1934; A.M., Louisiana State University, 1935; Ph.D., ibid., 1939.

Instructor in English, Alcee Fortier High School, 1935; Teaching Fellow in English, Louisiana State University, 1936-1938; Instructor of English, Loyola University, 1938-1941; Assistant Professor of English, ibid., 1941-45; Associate Professor of English, ibid., 1945-49; Professor of English, ibid., 1949—.

Membership in Learned Societies: Modern Language Association of America; S.C.M.L.A.

Major Field of Research: Restoration Drama.

Aldea Maher, M.A., M.D. Professor of Medical Technology

A.B., Newcomb College, Tulane University, 1913; M.A., Tulane University, 1914; M.D., ibid., 1919.

Interneship, Charity Hospital, New Orleans, 1919-1920; Pathologist, Womens Dispensary, 1919-1920; Instructor, Laboratory Clinical Medicine, Tulane University, 1920-23; Director, Pan-American Laboratory, 1923-; Associate Pathologist, Hotel Dieu, 1920-; Professor of Physiological Chemistry, Loyola University, 1930-40; Professor of Chemistry, Hotel Dieu Training School for Nurses; Active Staff of Hotel Dieu.

Membership in Learned Societies: American Medical Association; Louisiana State Medical Society; Orleans Parish Medical Society; Women's National Medical Association; American Society of Clinical Pathologists; Alpha Omega Alpha, Honorary Fraternity; Stars and Bars.

Major Field of Research: Clinical Pathology.

Rev. Karl A. Maring, S.J., A.M., Ph.D. Professor of Physics and Chairman of the Department

A.B., Woodstock College, 1915; A.M., ibid., 1916; Ph.D., St. Louis University, 1932:

Instructor Spring Hill High School, 1916-1918; Professor of Chemistry, St. Charles College, 1918-1921; Instructor in Physics, Spring Hill College, 1925-1928; Teaching Fellow, St. Louis University, 1928-1931; Professor Physics and Chairman of the Department, Loyola University, 1931—.

Membership in Learned Societies: American Mathematical Society; Board of Southern Intercollegiate Mathematical Association; New Orleans Academy of Sciences; American Association for the Advancement of Science.

Major Field of Research: Light and Atomicphysics.

Edmond L. Merilh, M.S. Professor of Biology

B. S., Spring Hill College, 1917; Certificate of Bacteriology and Pathology, Loyola University, 1922; M. S., Loyola University, 1923.

Instructor in Biology, Loyola University, 1919-1922; Associate Professor of Biology, ibid., 1922-1943; Professor, ibid., 1943—.

Membership in Learned Societies: The Louisiana Academy of Sciences; The American Association for the Advancement of Science; The Catholic Round Table of Science; The American Pharmaceutical Association; Member of the Board, Eye, Ear, Nose and Throat Hospital; New Orleans Academy of Science; American Microscopical Society; Phi Rho Sigma Fraternity; Theta Beta, National Honor Biology Society; Louisiana Department of Conservation; Moderator of Agramonte Society; National Catholic Educational Association; New Orleans Botanical Society; Blue Key, National Honor Service Fraternity; L'Union Francaise; National Geographic Society; O. L. Pothier Biological Society; Lifetime Professional (Teacher's) Certificate, State of Louisiana; Beta Epsilon Upsilon; Gamard, Pre-Dental Society.

Major Field of Research: Pathogenic Bacteriology.

Rev. Eugene J. O'Connor, S.J., A.M., Ph. D. Professor of English and Chairman of the Department

A.B., Woodstock College, 1911; A.M., St. Louis University, 1912; A. M., Loyola University, 1920; Ph.D., Georgetown College, 1913.

Instructor, St. Charles College, 1913-1914; Instructor, Spring

Hill College, 1914-1917; Teacher, Jesuit High School, 1922-1923; Principal, Tampa Jesuit High School, 1924-1926; Instructor of English, Loyola University, 1926-1928; Associate Professor of English, ibid., 1928-1930; Professor of English and Chairman of English Department, ibid., 1930—.

Membership in Learned Societies: Modern Language Association.

Major Field of Research: Classics.

Rev. Charles J. Quirk, S.J., A.M. Professor of English

A.B., Woodstock, 1914; A.M., St. Louis University, 1937.

Instructor, St. Louis University, 1936-1937; Professor, Spring Hill College, 1937-1939; Professor of English, Loyola University, 1939—.

Membership in Learned Societies: Poetry Society of America; Poetry Society of Alabama; Delta Epsilon Sigma.

Major Field of Research: Poetry.

Samuel H. Ray, S.J., A.M., S.T.D. Professor of Theology and Chairman of the Department

A.B., Gonzaga University, Spokane, Wash., 1917; A.M., ibid., 1918; Teacher in High School, St. Charles College, Grand Coteau, 1918-1922; Professor, St. Charles College, 1927-1929; Professor of Religion, Chairman of the Department, and Dean of Men, Loyola University, 1933-1942, 1946—.

Membership in Learned Societies: National Sodality Union; Blue Key.

Major Field of Research: Theology.

Lawrence L. Swan, M.D. Professor of Medical Technology, Director of Hospital Training

M.D., University of Illinois College of Medicine, 1940.

Interneship and residency State of Wisconsin General Hospital, Madison, Wisconsin, 1940-42; Chief, Laboratory Section, Station Hospital, Fort Leavenworth, Kansas, 1942-44; Pathologist in Charge of Histopathological Center, Fitzsimmons General Hospital, Denver, Colorado, 1944-1946; Pathologist for the Chest Tumor Registry of the Army Institute of Pathology, Washington, D. C., 1946-47; Assistant Professor of Pathology, University of Wisconsin, 1947-48; Chief of Pathology and Clinical Laboratory Section, U. S. Marine Hospital, New Orleans, Louisiana, 1948—; Consulting Pathologist for the United States Public Health Service, Southern Area Laboratories, 1948—; Lecturer, Department of Pathology, Tulane University of Louisiana, 1948—.

Membership in Learned Societies: Certified by the American Board of Anatomic and Clinical Pathology; American Association of Pathologists and Bacteriologists; American Society of Clinical Pathologists; member of College of American Pathologists; Fellow of the American Medical Association; Associate Member of Orleans Parish Medical Society; Member of Louisiana Association of Pathologists; Member of American Association for the Advancement of Science.

Major Field of Research: Histopathology.

Victor H. Baker Associate Professor in German and Journalism

Certificate, Die Hochschule Fur Welthandel, University of Vienna, 1908.

Lecturer in Journalism, Loyola University, 1941-42; Instructor, ibid., 1942-44; Assistant Professor, ibid., 1944—.

Membership in Learned Societies: American Association of

Teachers of Journalism; The American Academy of Political and Social Science.

Major Field of Research: Journalism—propaganda and censorship.

Winston R. deMonsabert, M.A. — Associate Professor of Chemistry

B.S., Loyola University, 1937; M.A., Tulane University, 1943; Professor of Physics, Warren Easton High School, 1940-44; Professor of Physics and Chemistry, Behrman High School, 1944-48; Assistant Professor of Chemistry, Loyola University, 1948-50; Associate Professor, ibid., 1950—.

Membership in Learned Societies: American Chemical Society American Association for the Advancement of Science, New Orleans Academy of Sciences, National Geographic Society, Fellow—American Institute of Chemistry.

Major Field of Research. Electrochemistry.

Timothy L. Duggan, M.S., M.T. — Associate Professor of Medical Technology

A.B., Loyola University, 1929; M.S., ibid., 1936; Bachelor of Oratory, New Orleans College of Oratory, 1927; Registered Medical Technician, American Society of Clinical Pathologists, 1940.

Graduate Assistant, Loyola University, 1934-1936; Instructor, ibid., 1936-40; Assistant Professor of Medical Technology, ibid., 1940-1946; Associate Professor of Medical Technology, ibid., 1946—.

Membership in Learned Societies: American Association for the Advancement of Science; Association of Military Surgeons of the United States; American Society of Medical Technologists; Theta Beta, National Honor Biology Society; Blue Key, National Honor Service Fraternity; Louisiana State Society of Medical Technologists; New Orleans Academy of Sciences, Executive Committee; Bacteriology Society, University of Kentucky; Gamard, Pre-Dental Society, Moderator; Agramonte Pre-Medical Society; Beta Epsilon Upsilon, National Medical Technology Society; Louisiana State Conservation Department, Special Agent; The Louisiana Society Sons of the American Revolution.

Major Field of Research: Pathogenic Bacteriology.

Catherine G. Goetz, M.S., M.D. — Associate Professor of Medical Technology

B.S., in M.T., Loyola University, 1939; Registered Medical Technician, American Society of Clinical Pathologists, 1939; M.S., Tulane University, 1944; M.D., Louisiana State University, 1950.

Medical Technologist, Hotel Dieu, 1939-1940; Medical Technologist, Loyola University, 1940-1941; Instructor, ibid., 1941-1945; Assistant Professor, ibid., 1945-50; Associate Professor, 1950—.

Membership in Learned Societies: New Orleans Society of Medical Technology; Theta Beta, National Honor Biology Society; Beta Epsilon Upsilon, National Medical Technology Society; Louisiana State Society of Medical Technology.

Major Field of Research: Medical Mycology.

Rev. Thomas F. Maher, S.J., A.M. — Associate Professor of English

A.B., Gonzaga University, 1924; A.M., ibid., 1925.

Instructor, Jesuit High School of Tampa, 1925-1926; Instructor, Jesuit High School of New Orleans, 1926-1928; Instructor, St.

John's College, 1933-1937; Instructor of English, Loyola University, 1937-1942; Assistant Professor, ibid., 1942—.

Membership in Learned Societies: National Association of Teachers of Speech; Southern Association of Teachers of Speech.

Major Field of Research: English.

José O. Monasterio, C.E. Associate Professor Emeritus of Mathematics

C.E., Chapultepec Military Academy, 1903.

Membership in Learned Societies: American Mathematical Society; American Society for the Advancement of Science; New Orleans Academy of Sciences.

Major Field of Research: Mathematics.

Walter G. Moore, A.M., Ph.D. Associate Professor of Biology

A.B., Wayne University, 1934; A.M., University of Minnesota, 1938; Ph.D., ibid., 1940.

Assistant Biologist, U. S. Forest Service, Summer, 1935; Assistant Biologist, Minnesota Department of Conservation, Summers, 1937-40.

Laboratory Assistant in Zoology, Wayne University, 1931-1934; Instructor in Zoology, Wayne Freshman College, 1934-1935; Teaching Assistant in Zoology, University of Minnesota, 1935-1940; Instructor in Biology, Loyola University, 1940-1941; Assistant Professor in Biology, ibid., 1941-1946; Acting Chairman, Department of Biology and Medical Technology, ibid., 1942-1944; Associate Professor in Biology, ibid., 1946—.

Membership in Learned Societies: Louisiana Academy of Science; New Orleans Academy of Sciences; New Orleans Botanical Society; Limnological Society of America; Ecological Society of America; American Microscopical Society; American Society of Icthyologists and Herpetologists; American Association for the Advancement of Sciences; Sigma Xi; Theta Beta, National Honor Biology Society; Gamma Alpha, Graduate Scientific Fraternity; Beta Epsilon Upsilon; Agramonte Premedical Society; Blue Key; Biological Consultant, Louisiana State Parks Commission.

Major Field of Research: Aquatic Ecology and Limnology.

Rev. William A. Mulherin, S.J., A.M. Associate Professor of Philosophy

A.B., Mt. St. Michael, Spokane, 1921; A.M., ibid, 1922.

Instructor, Springhill College, 1931-35; Assistant Professor, ibid., 1935-41; Associate Professor, ibid., 1941-43; Associate Professor, Loyola University, 1945—.

Major Field of Research: Philosophy.

Rev. Louis G. Soniat, S.J., A.M., Associate Professor of Modern Foreign Languages and Chairman of the Department

A.B., Gonzaga University, 1925; A.M., ibid., 1926.

Instructor in English, University of Tiensin, China, 1928-1930; Assistant Professor of French, Loyola University, 1935-1942; Associate Professor, ibid., 1942—.

Major Field of Research: French.

John D. Schneidau, Jr., M.S. Assistant Professor of Biology

B.S., Loyola University, 1938; M.S., Tulane University, 1940.

Graduate Assistant in Botany at Tulane, 1938-1940; Instructor,

Loyola University, 1945-47; Assistant Professor, ibid., 1947—.
Membership in Learned Societies: New Orleans Academy of Sciences, New Orleans Botanical Society; Beta Mu, Tulane Honorary Biology Society; Theta Beta, National Honor Biology Society; Society of American Bacteriologists; American Association for the Advancement of Science.
Major Field of Research: Medical Mycology.

Rev. Edward W. Shields, S.J., A.M., S.T.L. Assistant Professor of Philosophy

A.B., Gonzaga University, 1929; A.M., ibid, 1930; S.T.L., St. Mary's College of St. Louis University, 1941.
Instructor, Jesuit High School, 1930-1934; Instructor of Philosophy, Loyola University, 1939-1942; Assistant Professor, ibid., 1942—.
Membership in Learned Society: Catholic Philosophical Association.
Major Field of Research: Philosophy.

Lawrence J. Strohmeyer, M.S. Assistant Professor of Physics

B.S., Loyola University, 1938; M.S., New York University, 1940.
Graduate Assistant, New York University, 1938-1941; Instructor of Physics, Loyola University, 1941-1944; Assistant Professor, ibid., 1944—.
Membership in Learned Societies: American Physical Society; New Orleans Academy of Sciences.
Major Field of Research: Electronics.

J. Edward Muldrey, M.S. Assistant Professor of Chemistry

B. S., Loyola University, 1940; M.S., University of Detroit, 1948.
Graduate Assistant, University of Detroit, 1940-41; Instructor, Loyola University, 1946-47; Instructor, University of Detroit, 1947-1948; Assistant Professor, 1948—.
Membership in Learned Societies; Delta Epsilon Sigma; Alpha Sigma Nu; American Chemical Society.
Major Field of Research: Biochemistry.

Elizabeth Jo Dalier, B.S. in M.T., M.T. Instructor of Medical Technology

B. S. in Medical Technology, Loyola University, 1945; Registered Medical Technician, American Society of Clinical Pathologists, 1946.
Medical Technologist, Hotel Dieu, 1945-1947; Instructor of Medical Technology, Loyola University, 1948—.
Membership in Learned Societies: New Orleans Society of Medical Technology, Louisiana State Society of Medical Technology, Beta Epsilon Upsilon, National Medical Technology Society; Theta Beta; National Honor Biology Society.
Major Field of Research: Bacteriology.

Lucien C. Delery, M.D. Instructor of Medical Technology

B.S., Loyola University, 1935; B.M., Louisiana State University, 1938; M.D., ibid, 1939.
Instructor of Medical Technology, Loyola University, 1941—.
Membership in Learned Societies: Beta Zeta Chapter, Phi Beta Pi; Orleans Parish Medical Society; Louisiana State Medical Society; American Medical Association; Secretary of Staff of French Hospital, 1941-1942; Theta Beta, National Honor Biology Society; Fellow of the Gorgas Society, Louisiana State University, 1936.
Major Field of Research: Medicine.

Joseph D. Hebert, Jr. — Instructor of Biology

B. S.-Bl., Loyola University, 1947; Instructor of Biology, Loyola University, 1947—; Research Assistant, Louisiana Sate University, School of Medicine, 1947—.

Membership in Learned Societies: Theta Beta, National Honor Biology Society; Gamard Pre-Dental Society.

Major Field of Research: Virology.

Rev. Elmo J. Rogero, S.J., A.M., S.T.L. — Assistant Student Counsellor and Instructor of Religion

A.B., Spring Hill College, 1939; Ph.L., Spring Hill College; 1940; M.A., St. Louis University, 1942; S.T.L., St. Louis University, 1945.

Teacher at Jesuit High School, New Orleans, 1940-1941; Instructor, Loyola University, 1945—; Assistant Student Counsellor, 1945—.

Member of the National Sodality Union—Bishop's Committee for Vocational Guidance.

Major Field of Research: Adolescent Psychology.

Richard P. Saucier — Instructor in Biology

B.S in Biology, Loyola University, 1950; Assistant in Biology, Loyola University, 1948-50; Instructor, ibid., 1950—.

Membership in learned Societies: Agramonte Pre-Medical Society; Theta Beta, National Honor Biology Society; Blue Key, National Honor Fraternity; Who's Who in American Colleges and Universities; Sigma Alpha Kappa.

Major Field of Research: Zoology.

Audrey C. Schuh, B.S. in M.T. — Instructor of Medical Technology

B.S. in Medical Technology, Loyola University, 1950.

Intern in Medical Technology, Hotel Dieu, 1949-50. Instructor of Medical Technology, Loyola University, 1950—.

Membership in Learned Societies: New Orleans Society of Medical Technology; Beta Epsilon Upsilon, National Medical Technology Society; Theta Beta, National Honor Biology Society.

Major Field of Research: Medical Technology.

John L. Kron, Jr., M.D. — University Physician

B. S., Loyola University, 1935; B. M., Louisiana State University, 1938; M.D., ibid., 1939. Instructor of Medical Technology, Loyola University, 1940-1946; University Physician, 1946—.

Membership in Learned Societies: Beta Zeta Chapter, Phi Beta Pi; Orleans Parish Medical Society; Louisiana State Medical Society; American Medical Association; Theta Beta, National Honor Biology Society; O. L. Pothier Biological Society; Fellow of the Gorgas Society, Louisiana State University, 1936; New Orleans Academy of Sciences; New Orleans Medical Foundation; American Academy of General Practice; American Association for the Advancement of Science; Association of Military Surgeons; Catholic Physicians Guild.

Staff of Hotel Dieu; Staff of Lakeshore Hospital; Surgical Staff, Charity Hospital of New Orleans.

Major Field of Research: Medicine.

Mary H. Sides — Secretary of the Department

Certificate, Roseboom's Business College, Houston, Texas, 1932.

Secretary, United Fruit Company, 1941-49; Secretary, Department of Chemistry, Tulane University, 1949-50; Secretary, Departments of Biology and Medical Technology, 1950—.

GENERAL STATEMENT

History The Department of Medical Technology was founded September 15, 1935. On August 29, 1936, the Department was accredited by the Council on Medical Education and Hospitals of the American Medical Association, and by the Board of Registry of the American Society of Clinical Pathologists. In March, 1942, as a matter of national policy, accreditation was transferred from the various colleges and universities to the affiliated hospital training schools where the practical clinical laboratory training is received. Through its fully accredited affiliated hospital training schools at Hotel Dieu, Touro Infirmary, Marine Hospital, Sara Mayo Hospital and Mercy Hospital, the Loyola University Department of Medical Technology provides the fullest opportunity for complete and thorough training in the theoretical and practical aspects of clinical laboratory work, as well as a well-rounded University course leading to the degree of Bachelor of Science in Medical Technology.

Jesuit System of Education Jesuit universities and colleges are unique in their characteristic educational methods. Theirs is a system of education based on the best traditions, the experience, and the research of the better educators in many countries through many centuries. The fundamentals of this system are embodied in a collection of pedagogical principles and practices known as the *Ratio Studiorum*.

This system is distinctive in its aim and objective as well as in its method of approach. Thoroughly convinced that religion is not an appendage to education, but a very vital part of the training of the student and of the subject-matter of his courses, the Jesuits always have held as the goal of education the blending of the supernatural with the natural. Their purpose has been to educate the whole man, seeking to develop his moral character as well as his mind, his soul as well as his body; believing that a true, cultured citizen of any state must be loyal to his God, his church, and his country.

As college life is the field in which youth with energy and initiative seeks to prepare itself for life's struggles, literature and science are studied in the light of an all-embracing philosophy which unifies knowledge and motivate action. The system is opposed to the pedagogical errors of undigested cramming, uncorrelated electives, over-specialization. The formation of habits of study, reading, and research, of quick thinking and

exact expression is characteristic of their aim. Personal contact with the professors, whose example, taste, and experience are often a more potent factor of education than the professional lecture, is a vital part of the system.

Jesuit education prepares its students for eternity as well as for time; for life as well as for vocation.

Location The Department of Medical Technology is located on the Campus of Loyola University, which is situated at 6363 St. Charles Avenue, in the heart of the residential section.

Dormitory Facilities The University does not maintain dormitories for women. University approved rooms may be obtained in vicinity of the University at reasonable rates.

Men may obtain rooms in the University's residences. Rates for rooms range from ten to twelve dollars a month. Meals may be obtained from the University's Cafeteria at reasonable rates.

Student Organizations To encourage the more ambitious student and to honor him, there are various societies and fraternities.

Sodality of the Blessed Virgin Mary For the purpose of fostering religious faith and fervor, and to encourage ambitious students to spiritual and scholastic leadership, the University Sodality offers many opportunities for personal development, as well as training and practice in social work and religious activity. Weekly meetings are held for the discussion of phases of Catholic life, and bi-weekly the Sodality gathers in the Louise Thomas Memorial Chapel to recite the office of the Immaculate Conception and receive Holy Communion in a body.

Student Council The Student Council consists of eighteen members, representing the College of Arts and Sciences, the Schools of Law and Dentistry, and the Colleges of Pharmacy and Music. These members, students, are selected by the student body, with the approval of the Faculty, from each of these groups. The duty of the Council is to unify student thought and action. It conducts general meetings and elections, sponsors and manages interclass contests, helps the student publications, and leads and directs student activities.

Debating Club Students participate weekly in exercises of public speaking. To further this activity among the students and to develop special oratorical talent, a Debating Club has been formed, which conducts debates with colleges and universities in various sections of the country.

Thespian and Literary Society The purposes of the Thespians are to develop and give an outlet to the dramatic talent of the students. With this object in view, several plays are given during the year.

Glee Club The Loyola Glee Club takes an active part in the public entertainments and assemblies of the university, and has a schedule of concerts it gives each year for public receptions and for radio programs over the Loyola Broadcasting Station, WWL.

University Band Membership in the University Band is open to all students who have the required training and ability. All who become members are expected to be regular and prompt in attendance at the appointed rehearsals.

Student Publications The students of the University, under Faculty supervision, publish the *Maroon,* a weekly, the editor of which is appointed by the Faculty Committee on Student Publications, and he in turn appoints the editorial staffs. The business management is in the hands of the students. Thus, their various duties in the editorial, reportorial, advertising and subscription departments render them familiar with phases of life outside of college that will be of benefit to them in their future careers.

Scientific Societies and Fraternities The Biology, Chemistry, Physics, and Mathematics Societies meet regularly for the discussion of special problems and for special lectures on scientific subjects. Students are eligible to membership in these societies subject to the special requirements for admission to each respective society.

Medical Technology students are also eligible to membership in the honorary and the Greek letter fraternities that are active on the campus, such as Blue Key, Alpha Sigma Nu, Upsilon Beta Lambda, Alpha Delta Gamma, Sigma Alpha Kappa, Theta Beta, Beta Epsilon Upsilon, Lambda Sigma Lambda, Alpha Pi Omicron, and Delta Epsilon Sigma.

R.O.T.C. Unit The War Department maintains a Senior Division of the R.O.T.C. at Loyola University of the South, which is classified as a CC (Civilian College) institution. The mission of the Reserve Officers Training Corps is to produce junior officers who have the qualities and attributes essential to their progressive and continued development as officers in the Army of the United States. The Military Department of Loyola University of the South places special emphasis upon "Leadership" to assist Loyola men in meeting any situation in life with success and honor. **Enrollment in the R.O.T.C. Unit is obligatory for all male freshmen and sophomores in the College of Arts and Sciences.**

Bequests and Gifts Because of its rapid growth the University must look to its friends and benefactors, and to all those whose bounty is being devoted to the cause of higher education, for the generous contributions which will enable the University to continue its building program. The University hopes for a continuance of financial as well as moral support from those who believe in placing college education within the reach of every deserving student, and who consider that education the safest and best which postulates as the foundation of its intellectual development the formation of character through moral and religious education.

The University cherishes the memory of all its benefactors, great and small. These share in the good works and prayers of the Jesuits of Loyola. Their generous assistance to the University, according to their means, will be remembered long after they are gone.

Among the distinguished benefactors of the University should be mentioned: Miss Sarah Babb, Mr. and Mrs. E. J. Bobet, Mrs. Paul Bordenave, Hon. Joseph A. Breaux, Mr. Joseph P. Buckley, Mr. and Mrs. Wm. P. Burke, Miss Leonora Del Bondio, Mr. Lawrence Fabacher, Mr. Edward Fassmann, Miss Mary Ferguson, Mr. Bernard Ghio, K. of St. G., Mr. G. R. Katz, Miss Mary Agnes McCabe, Miss Katherine McDermott, Mr. Edgar Murray, Mrs. J. B. Palmer, Mrs. Emma P. Quintero, Mrs. Louise Jouet Rabouin, Mrs. Olive Stallings, Mrs. George Swarbrick, Mrs. S. O. Thomas, Mr. and Mrs. W. J. Vincent, Miss Lilly Whitaker.

Those who are desirous of helping Loyola University in its sublime mission of higher education by erecting buildings as

family memorials, or by endowing departments or lecture-chairs in any of its schools or colleges, are requested to make their donations, legacies and bequests in the proper legal form, as shown on page 43 of this Bulletin. One may specify the purpose for which the gift is to be used. This intention will be observed scrupulously. It is well to state whether the sum is for building and equipment or for endowment, as the latter must be invested and only the accruing interest may be used.

ENTRANCE PROCEDURE

Application For Admission Applicants for admission to the Freshman class must meet the requirements stated below under Methods of Admission. The specific units of credit that are required and other units that may be presented for admission to the Freshman class are listed under Admission Requirements.

Application for admission accompanied by proper credentials must be filed with the Registrar before July 1 for September admission, before January 1 for February admission. Applications received after these dates will be considered only if student quotas have not been filled.

Applicants for admission as Freshmen, or with advanced standing, must submit official records from all schools and colleges attended. These credentials are to be sent directly by the proper officer of the school or college in which they were earned and not through the student. Credentials which are submitted for admission become the property of the University, even in the case of applicants to whom admission is denied, and are kept permanently on file. Blank forms for transcripts of records may be had on application to the Registrar.

It is recommended that applicants have their credentials sent to the Registrar immediately after graduation from high school. This will enable the Committee on Admissions to pass on their eligibility and to inform them of any deficiencies that may be made up in the summer session.

The University reserves the right to refuse admission to applicants whose previous work is of such a grade as to create a doubt regarding their ability to pursue successfully their scholastic work in the University.

All students are expected to be matriculated before the beginning of the session's classes, thus allowing them ample time to be assigned to classes and to be provided with laboratory equipment.

Students should be present on the opening day of classes. They will not be admitted after the first ten class days. Freshmen must be present on the opening day of Freshman Orientation Week.

The University is not co-education in all departments. Admission of girls to the College of Arts and Sciences full-time courses is restricted to the courses in Medical Technology and Teacher Training, to which courses a limited number of girls will be admitted each year. Girls will not be admitted as candidates for the other degree programs in the College of Arts and Sciences. This restriction does not apply to Part-time Courses.

Methods of Admission *I. As a Regular Student*—Admission as a *matriculated student to the College of Arts and Sciences may be obtained by one of the followings methods: (1) by certificate or diploma of graduation from an approved high school; (2) by examination; (3) by transfer from another institution of higher education.

Admission by Certificate—Admission without examination is granted to students who have graduated with a minimum of fifteen acceptable units and in the upper two-thirds of their class from any high school accredited by a recognized standardizing agency, or by the State Board of Education, or by the State University of the State in which the high school is situated. The application for admission must be accompanied by a certificate from the high school showing the quantity and quality of work accomplished by the applicant and giving information about his personality, character, and health.

Admission by Examination—An applicant who is not entitled to enter by certificate, as stated above, may be admitted on the basis of entrance examinations in English and Mathematics and of a general intelligence test. These examinations are held in July and September. Applications for these examinations should be made to the Registrar of the University at least two weeks in advance.

Admission to Advanced Standing—Advanced standing will be given, at the discretion of the Committee on Admission and

* A matriculated student is one who has fulfilled all entrance requirements, paid all fees that are due, and is pursuing regular courses leading to a degree.

classification, to an applicant who has fulfilled the high school requirements for admission and in addition presents a transcript of college credits certified by the proper official of the college or university attended showing all the scholastic work done in that institution and in all other institutions of collegiate rank previously attended, and giving the student honorable dismissal. Credits presented from a non-accredited institution will be accepted rarely, at the discretion of the Committee on Admission and Classification, and only if the student has made satisfactory grades in his first semester's work at Loyola University College of Arts and Sciences. *No transfer student will be accepted unless he has attained a "C" average for all hours attempted during the preceding year at the college from which he transfers, has a general "C" average for all hours attempted previously in college, and no faculty action has been taken against him.* Credits presented for work done by correspondence will not be accepted.

II. As a Special Student—A limited number of mature persons who are not eligible for admission into the University by certificate may be admitted as special students under the following conditions: (1) they must be at least twenty-one years of age; (2) they must not have been in attendance in high school during the previous year; (3) they are to present all available certified credits of previous school work, together with formal application for admission as special students, stating the subject courses desired and the reasons for desiring those courses. When no certified credits can be presented, the applicant must furnish a detailed statement of all previous educational work and practical experience.

By virtue of his classification, a special student is not eligible for any degree nor is his college work accredited until he successfully completes entrance examinations. He may ultimately become a candidate for a degree by completing by entrance examinations the admission requirements of the department in which he wishes to register. Upon successful completion of entrance examinations, his previous college work is accredited.

Registration as a special student is for one semester only. Registration for a following semester will be refused if the student has not shown satisfactory earnestness and definiteness of purpose, or if his work has not been satifactory in the preceding semester. No one may register in the University as a special student for more than two years.

III. As an Out-of-Course Student—A limited number of earnest students of mature years who, though fully qualified for admission to the College as regular students, do not wish to register as candidates for a degree, but merely want to pursue particular studies for cultural purposes, may be permitted to register as out-of-course students, provided they have obtained the recommendation of the Chairman of the Department in which they wish to register, and the written permission of the Dean. Such recommendation and permission will not be given to applicants who are not evidently qualified to pursue profitably the desired courses.

An out-of-course student may not establish any credits toward the fulfillment of requirements for a degree unless he changes his academic status to that of a regular student. Out-of-course students must make this change within the first four semesters if the credits are to be used toward an academic degree. At the beginning of each semester they must make written application to the Dean for the privilege of registering for that semester. This privilege will be granted only to those applicants who have shown, during the preceding semester, a satisfactory definiteness and earnestness of purpose.

Admission Requirements For admission to the College of Arts and Sciences at least fifteen acceptable high school units are required. In general, these units should show several sequences of subject-matter adapted to the course to which admission is sought. *The student seeking admission must be in the upper two-thirds of his class. Students in the lower third of the graduating class may be admitted on probation for one semester provided they pass an entrance examination.*

1. All students must present the following units.

	Units
*English	4
History, Civics	2
Algebra	1
Plane Geometry	1
**Latin or Modern Foreign Language	2
Science	1

2. In general, only three units will be accepted from the following group.

	Units		Units
Bookkeeping	1	Economics	½ - 1
Commercial Law	½ - 1	Music	1
Commercial Geography	1	Shop Work	1
Drawing — Mechanical	1	Stenography	½
Drawing — Freehand	1	Typewriting	½

* One unit in English may be replaced by a unit in Speech or Journalism.
** These units may be waived and supplied by scheduling Elementary Language Courses in College.

3. A student may not register for a subject course which presupposes specific high school preparation, unless he has completed such preparation. Any deficiency in such preparation will make it necessary for him to take those basic courses which the University judges advisable. Credit for that work may or may not be allowed, according to the circumstances of the case.

Student Fees Fees are paid in four installments in each scholastic year—the first on the date of registration, the second on November 1st, the third on February 1st and the fourth on April 1st. *Any other arrangement for payment must be made before the completion of registration with the Treasurer of the University.*

The following are the fees in the College of Arts and Sciences:

Tuition and Basic Fees	$350.00 per year
Matriculation Fee	5.00
Late Registration	5.00
Graduate Record Examination	3.00
Graduation	25.00
Cap and Gown Deposit	30.00
Conditional Examination	2.00
Late Examination	2.00
Transcript (after first)	1.00
Locker	2.00
R.O.T.C. Deposit	20.00

Additional fees are charged for certain courses. These fees must be paid by those who schedule the following courses.

Education 350	$30.00
Expression 211-212	5.00 each
Expression 214	10.00

The basic Fee includes registration, tuition, library, laboratory, subscription to the Maroon and Wolf, athletics, forum, physical education, and certain other student activities.

The Matricualtion Fee is charged only at the time of a student's first registration in the College of Arts and Sciences.

The Graduation Fee and the Cap and Gown Deposit are paid by Seniors on May 1. The full deposit will be refunded provided the cap and gown are returned in good condition immediately after graduation. If they are returned more than

two months after graduation, only $10.00 will be refunded.

The Late Examination fee will be charged for any examination taken later than the assigned date, no matter what the excuse. Except for sickness, no late examination will be given unless permission is obtained from the Assistant Dean prior to the regularly scheduled examination.

Students will be taxed for excessive breakage or destruction of University property. The decision covering each case will be made by the University.

Until a student's indebtedness is paid in full, no transcript of credits or record of his work will be released from the University.

Refund Policy It is the sole duty of the individual student, in case of interruption of courses, to make formal application to the Registrar's office for refunds, which will be made as follows:

Within first week of semester.....80%
One week to three weeks of semester.....60%
Three weeks to five weeks of semester.....40%
No refund after five weeks.

No refunds are made when a student is suspended, dismissed for disciplinary reasons, or fails to pass in prescribed or elected courses. *Refund policy applies on basic fee only.*

Student Loans. The Kellogg Foundation has made available to Medical Technology students a number of student loans. The loans may be in any amount up to $300.00 in any one year. The loans carry a very low rate of interest, and amortization of the principal need not begin until one year after graduation. Payments on the principal are spread over a four year period.

ADMINISTRATIVE PROCEDURE

The College Year Instruction begins in the second week of September on the day specified in the Calendar. Instruction includes thirty-four weeks divided into two semesters of seventeen weeks each. There is a recess at Christmas and at Easter. Instruction is suspended on legal holidays and on holy days of obligation observed in the Catholic Church.

Instruction The unit of instruction is one hour a week for one semester. Two hours of work in the laboratory are considered equivalent to one hour of recitation. Students may re-

ceive credit only for the number of hours published with a course. No credit will be allowed for a course for which a student is not regularly registered.

Attendance as auditors is not granted to regular students without written permission of the Dean.

Withdrawals A student who withdraws from the University during a semester before taking the final examinations of the semester forfeits all credit for work done in that semester.

To obtain his honorable dismissal on withdrawing from the University, the student must obtain from the Dean a written permission for such withdrawal, which must be presented to the Registrar. This written permission will not be given if the student has not met all financial obligations to the University, or if he is under any official censure, or if there is any official charge pending against him.

A student desiring to withdraw from a schedule course or to add another course after his semester's schedule has been filed in the Registrar's office may do so only after having obtained written permission from the Dean. Permission to add a course or to change from one section of a course to another will not be granted after the date indicated in the Session Calendar as the last day for schedule adjustments.

Attendance The University is insistent on regular and punctual attendance. Each tardiness, defined as a student's failure to be present when his name is called at the beginning of each class or laboratory, will be counted as a third of an absence.

The student coming late is responsible for seeing that the instructor changes the absence noted at the beginning of the class to a tardiness.

Any student incurring more than six absences in a course which carries three or more semester hours will be dropped from the course automatically. In courses of less than three semester hours the maximum number of absences will be double the number of semester hours, e.g. in a two semester hour course, four absences will be the maximum allowed; in a one semester hour course, two absences will be the maximum.

Students who have exceeded the maximum number of absences will have a right to petition the Committee on Attendance, if their class standing is good and a serious reason has warranted each absence.

Students petitioning reinstatement should do so within twenty-four hours after they receive notification that they have been dropped from a course. The petition must be submitted by letter to the Assistant Dean and must include the reason for each absence, giving dates, etc. While the petition is being reviewed by the Committee on Attendance the student will be permitted to attend classes on probation. The decision of the Committee on Attendance will be final.

Extended absences due to sickness must be verified by a doctor's certificate. Attendance at funerals or weddings, outside work, transportation difficulties, and the like will not be accepted as excuses for excessive absences.

Students entering class more than five minutes after the starting bell will be recorded absent.

Absences for any excuse whatever do not exempt a student from quizzes, tests, examinations, or other written work required during the period of absence. The responsibility for making up such work rests wholly upon the student. A failing grade for the omitted work will be charged against the student if he does not fulfill his obligations within the time limit determined by his professors.

Discipline The educational system of this University includes, as one of its most important features, the formation of character. It is expected that each student will be so loyal to the spirit and ideals of his Alma Mater that the exercise of proper self-control will come from his own convictions and free determination.

The College rules and regulations are meant as a guide and help to foster that gentlemanly and lady-like conduct which is presupposed in every Loyola student. These rules require regular and punctual attendance at all scheduled exercises, obedience to college customs and regulations, serious application to study, and blameless conduct. A student who shows himself deficient in these essential points will be suspended or dismissed.

The University reserves the right to dismiss at any time a student who fails to give satisfactory evidence of earnestness of purpose and of interest primarily in the serious work of college life. Dismissal may be made without specific charges, and, in rare cases, perhaps on grounds that will seem insufficient to students and parents. The University, in these cases, holds itself to be the more capable judge of what affects the interests of the institution and the student body.

Health Each student must present himself to the Department of Health Service for a medical and dental examination at the opening of school. Record cards indicating defects, weaknesses, etc., will be kept, and the student will be advised as to the proper methods of removing these obstacles to health and improving his physical conditions.

Each student must be vaccinated before admission, unless he can furnish proof that he has been vaccinated recently.

Examinations One written test and one examination are required in each subject each semester. Weekly quizzes may be given at the discretion of the professors. The result of the examinations, combined with the grade for the student's class and laboratory work and tests, will determine the final or passing grade for the semester.

A student will not be permitted to take the semester examination in a course unless he has fulfilled the following requirements:

1. He must have taken the required mid-semester test and completed all assigned work in the course during the semester.

2. He must have made at least an average grade of "D," computed by combining in proper percentages his grades for all tests, quizzes, laboratory work, and other assigned matter.

3. He must have attended the required number of classes, lectures, and laboratory periods.

The passing grade in the Department of Medical Technology is "D." The student obtaining this grade or above receives credit for the number of semester hours allowed for that portion of the course.

A grade of "E" represents a condition. This condition may be removed only by examination. Only one such examination is allowed, and only on the day assigned by the Dean. If the student is successful in the examination, he receives the full credit of semester hours, but the highest average allowed for his permanent record for this subject is "D." If the student fails to make a "D" in this examination, the condition becomes a failure, and the course must be repeated.

Students absent from any examination, unless for the very gravest of reasons approved by the Assistant Dean, will receive a failure grade in that course.

For each condition examination, and for each regularly scheduled examination taken out of course, a fee of $2.00 will be charged.

Reports. Reports containing a record of the student's class standing and attendance are sent to parents or guardians. Special reports are made when it is deemed advisable, or upon special request.

Grades are reported as follows:

Grades—A, 93-100; B, 85-92; C, 77-84; D, 70-76; E, 60-69 (condition); F, 0-59 (failure); FE, failure because of excessive absence; FS, failure because of pre-examination scholastic deficiency; W, withdrew from course with permission; WF, failure because of withdrawal from course without faculty permission.

Classification of Students Those students are ranked as Sophomores who have credit for thirty-six semester hours; Juniors, those who have seventy-two semester hours; Seniors, those who have one hundred and eight semester hours. Students not included in any of these classifications are registered either as special students or as out-of-course students.

Scholastic Standing The standing of a student is computed on all hours attempted, including elementary languages, but excluding authorized withdrawals. All attempts at a course which has been failed and repeated or which has been repeated to raise the quality of work will be counted in computing a student's scholastic standing.

Scholastic Probation and Dismissal 1. All students admitted on the basis of entrance examinations will be placed on scholastic probation for one semester.

2. Regularly matriculated students whose average is less than the allowed minimum, as indicated in the following scale, will be placed on scholastic probation for one semester:

after one semester: 0.5 quality point average;
after two semesters: 0.7 quality point average;
after three semesters: 1.0 quality point average.

If after one semester on probation, the student has not raised his average to the allowed minimum, he will be asked to withdraw from the University, but will be allowed one attempt in the summer session to qualify for re-admission.

3. Students who do not have a 1.0 general average and a 1.0 average in their major and minor fields of concentration

at the end of their sophomore year must remedy their deficiencies before beginning their upper division major or minor work.

4. Students on scholastic probation will schedule no more than 16 and no less than 12 semester hours.

N.B. The quality point average is determined by dividing the total hours attempted, exclusive of failures, into the total of quality points earned. Cf. "Quality of Work," pg. 32.

Eligibility Rules Students taking part in dramatic performances, public debates, oratorical or elocution contests, or intercollegiate athletic contests, and those who are appointed to the staffs of the University publications, as well as the officers of student organizations, are subject to the following eligibility rules:

1. They must be enrolled each semester in at least twelve semester hours of work in regular or special courses as defined in the curriculum of the University.

2. They must have passed at least twelve hours of the work in which they were enrolled for the last semester in residence.

3. They must not be under official censure of any kind.

Degree Conferred The degree of Bachelor of Science in Medical Technology is conferred by the College of Arts and Sciences on the satisfactory completion of the required work in the Department of Medical Technology.

REQUIREMENTS FOR GRADUATION

General Requirements The conditions for the Baccalaureate degree are the following:

1. The satisfactory completion of the four-year course leading to the degree for which the student is a candidate.

2. The candidate for a degree shall pass successfully a comprehensive examination in the field of Medical Technology during the first week in April of the year in which it is expected that the degree will be conferred.

3. To be accepted for credit in fulfillment of any requirement for a degree, all work must be completed with at least the grade D, and a grade of C or better must be made each semester in every upper division subject taken by the student in each area of his field of concentration.

4. The payment of all indebtedness to the University, including the graduation fee, in advance.

5. No student shall be considered a candidate for a degree if he has any deficiencies at the beginning of the second semester of his Senior year.

6. All applicants for a degree must file in the Registrar's office, during the fourth week of September of their Senior year, a formal application for their degree.

7. All candidates must be present at the Commencement Exercises and receive their degree in person. No excuse, except that of serious illness attested by a reputable physician, will be accepted. The University will not confer degrees *in absentia.*

I. Amount of Work To receive a Baccalaureate degree, a student is required:

1. To complete 136 semester hours of work, and to secure 136 quality points; that is, an average rating of C grade or better in all subects. In addition to the required 136 hours, all Catholic students must take courses in Theology each semester.

2. A certain amount of prescribed work must be done. (See "Character of Work.")

3. In selecting the elective work, the Major and Minor requirements must be kept in mind.

4. Free electives, which afford opportunity either for broader culture or for greater specialization, as the student may choose, may be taken. It is particularly recommended that Algebra, Trigonometry, and General Physics be taken as electives.

5. All male students will be required to take physical education during their two years at the University. Unless a male student has fulfilled the requirement in Physical Education by the beginning of his senior year, he will not be allowed to carry a schedule entitling him to graduate at the end of that scholastic year.

6. Students who wish to schedule courses at other colleges and have such courses recognized as partial fulfillment of their Degree Program at Loyola must obtain the written permission of the Dean before such courses are scheduled. Failure to obtain such written permission will render the courses unacceptable to Loyola.

II. Quality of Work A candidate for a degree must present not only the required quantity of work, but he must attain a certain standard of excellence in his work, especially in his Major Field. For this reason, the candidate for a Bachelor degree must present, in addition to the 136 semester hours of credit, 136 credit points for quality of work, or an average mark in all subjects of C or better.

Credit points are earned in the following manner: For the grade of A in a given course, the student receives *three* times as many quality points as semester hours credit allowed for that course; for a grade of B, *twice* as many quality points as semester hours; for the grade of C, *just as many* quality points as semester hours. For the grade of D, quantity points are allowed, but no quality points. For the grade of F, neither semester hours nor quality points are credited, but the semester hours are added as hours attempted in computing a student's standing and credit point ratio.

Graduation Honors Graduation honors are computed according to the quality point system. A student's graduation average is determined by dividing the total number of quality points earned by the total number of semester hours attempted by the student during his entire course. Semester hours carried include all hours attempted, excluding authorized withdrawals, but including all attempts at a course which has been repeated in order to raise the total of quality points. A student who has made an average of 2.5 graduates *cum laude;* one who has made an average of 2.7 *magna cum laude;* one who has made an average of 2.9 *summa cum laude.* Record of these honors is inscribed on the diplomas and noted in the list of graduates published for the Commencement Exercises.

Knowledge of Regulations Every student is to acquaint himself with all the regulations of the University that pertain to him. Ignorance of a regulation is not accepted as an excuse for its violation. The regulations are to be learned from the General Bulletin of the University, the Students' Handbook, official instructions given to the students, and posted official notices. When a student registers in the University, it is understood that both the student and the student's parents or guardians agree to the student being governed by the regulations of the University, and will abide by decisions that may be made by officials in the University regarding the student.

BACHELOR OF SCIENCES — MEDICAL TECHNOLOGY

DEPARTMENTS OF INSTRUCTION

The courses of instruction are numbered in accordance with a plan uniform throughout the University.

(a) Lower division courses, numbered from 100 to 199, are introductory. They are open to Freshmen and to Sophomores.

(b) Lower division courses, numbered from 200 to 299, are more advanced. For these courses, introductory training in the same or allied subjects is a prerequisite.

(c) Upper division courses, numbered from 300 to 399, are intended for undergraduate students of Junior or Senior standing.

(d) Odd numbers indicate courses given in the first semester, from June to September and January to June; even numbers indicate those given in the second semester, from January to May.

Each course number is preceded by its departmental designation.

DEPARTMENT OF BIOLOGY

Dr. Arnold, Chairman — Dr. Moore — Prof. Merilh
Prof. Duggan — Dr. Goetz — Prof. Schneidau
Mr. Hebert — Mr. Saucier

Bl. 101 General Botany A course designed to acquaint the student with the biology of the plant kingdom. Fundamental principles, including the morphology and physiology of the cell, are first considered. A study is then made of the morphology, relationships, and life histories of representative examples of the major plant groups. Genetics and the economic importance of certain plants are considered briefly.

Two lectures and two laboratories
Offered every year. 4 sem. hrs.

Bl. 104 General Zoology A continuation of Course Bl. 101 A comprehensive study is made of typical invertebrate and vertebrate animals. Cell division, embryology, and heredity are also considered.

Two lectures and two laboratory periods.
Offered every year. 4 sem. hrs

Bl. 105. Invertebrate Zoology. A study of the underlying principles of animal life. The taxonomy, morphology, physi-

ology, life history, habits, and distribution of the invertebrate phyla are considered.

Two lectures and two laboratory periods. 4 sem. hrs.
Offered every year.

Bl. 106. Vertebrate Zoology. A study of the taxonomy, morphology, physiology, life history, habits, and distribution of vertebrate animals. Reference is made to the lower chordate animals. Embryology, Genetics, and Ecology are considered briefly.

Two lectures and two laboratory periods.
Prerequisite: Bl. 105. Offered every year. 4 sem. hrs.

Bl. 201. Comparative Anatomy of the Vertebrates. An intensive study of type forms as a preparation for human anatomy.

Two lectures and two laboratory periods.
Prerequisite: Bl. 105-106 or Bl. 101-4. 4 sem. hrs.

Bl. 301 Bacteriology This course embraces bacteriological technique, the classification and the study of the properties of important non-pathogenic and pathogenic bacteria. The principles of immunity and serology, and a brief survey of filtrable viruses are also considered.

Two lectures and two laboratory periods.
Prerequisite: Bl. 201. Offered every year. 4 sem. hrs.

Bl.302 General Histology The study of the microscopic structure of tissues and organs of the mammalian body, and the study of the fundamentals of hematology.

Two lectures and two laboratory periods.
Prerequisite: Bl. 201. Offered every year. 4 sem. hrs.

Bl. 303 General Physiology A course in the fundamentals of mammalian anatomy and the normal functions of tissues and organs, with special emphasis on the human type.

Three lectures and one laboratory period.
Offered every year. 4 sem. hrs.

Bl. 305 Animal Parasitology. A study of parasites in relation to disease. The various types of parasites, their life histories, and the conditions which they cause will be considered.

Two lectures and two laboratory periods.
Prerequisite: Bl. 201. Offered every year. 4 sem. hrs.

Bl. 306. Animal Microtechnic. A course in the principles and methods of preparing animal material for microscopical study. The student is given practice in fixing, embedding, sectioning, staining, and mounting tissues; the preparation of whole mounts.

One lecture or conference, and at least three laboratory periods a week.

Prerequisite: Bl. 302. Offered every year. 4 sem. hrs.

Bl. 310. Pothier Seminar. The seminar is composed of the staff and of students majoring in Biology, as well as others interested in the subject. The work of the seminar consists in the reading and discussion of papers on biological subjects by the members and lectures by visiting scientists.

Offered every year. No credit.

Bl. 390-391. Biological Problems. This is a course to allow the student to carry on advanced biological work under faculty supervision. This course is open to Seniors.

Prerequisite: Three years of Biology.

Offered every year. Credit determined by work done.

DEPARTMENT OF CHEMISTRY

Rev. Francis, S.J., Chairman

Prof. Bailey Prof. Muldrey

Prof. de Monsabert

Ch. 101. General Inorganic Chemistry. Fundamental principles of Chemistry; the laws of chemical action and a description of the metallic and non-metallic elements and their compounds.

Two lectures and two laboratory periods.

Offered every year. 4 sem. hrs.

Ch. 102. General Inorganic Chemistry. A detailed study of the metallic elements and their salt formations, solution, ionization, precipitation, and qualitative analysis. Detection of the common cations and anions, based on the application of chemical principles.

Two lectures and two laboratory periods.

Prerequisite: Ch. 101. Offered every year. 4 sem. hrs.

Ch. 201. Organic Chemistry. Discussion of the important compounds of aliphatic and aromatic series and preparation of typical compounds.

Two lectures and two laboratory periods.

Offered every year. 4 sem. hrs.

Ch. 202. Organic Chemistry. A continuation of Ch. 201.
Two lectures and two laboratory periods.

Offered every year. 4 sem. hrs.

Ch. 301. Inorganic Qualitative Analysis. A study of anions and cations—their identification.
Two lectures and two laboratory periods.

Offered every year. 4 sem. hrs.

Ch. 302. Inorganic Quantitative Analysis. Gravimetric and volumetric methods.

One lecture and three laboratory periods.

Offered every year. 4 sem. hrs.

DEPARTMENT OF ENGLISH

Rev. O'Connor, S.J., Chairman
Dr. Eberle Rev. Quirk, S.J. Dr. Horne
Rev. Maher, S.J.,

En. 101. Freshman Composition. Principles of *effective* writing. Exercises in précis work, essays, speeches.

Offered every year. 3 sem. hrs.

En. 102. Freshman Composition. Principles of *artistic* writing. Exercises in narrative and descriptive forms, and the familiar essay.

Offered every year. 3 sem. hrs.

En. 201 A Survey of English Poetry and Prose Political, intellectual, and religious background from Beowulf to the Romantics. The course is required of all Sophomores. Offered every year. (I) 3 sem. hrs.

En. 202 A Survey of English Poetry and Prose From the Romantics to the present day. This course is required of all Sophomores. Offered every year. (II) 3 sem. hrs.

DEPARTMENT OF MEDICAL TECHNOLOGY

Dr. Arnold, Chairman Dr. Moore
Prof. Duggan Dr. Gaudet Dr. Hartwell Dr. Hauser
Prof. Merilh Dr. Kron Dr. Delery Dr. Swan
Dr. Goetz Miss Dalier Miss Schuh Dr. Hertzog

Md. 101 A course to acquaint the prospective Medical Technician with the ethics of the profession. The course includes a thorough study of the principles and practice of Hematology. Offered every year. 4 sem. hrs.

Md. 102 A course designed to instruct the student in the care and use of laboratory equipment and the principles of urinalysis. Offered every year. 4 sem. hrs.

Md. 201 This course includes a review of the fundamentals of urinalysis and hematology, and detailed studies in the technique of electrocardiography and basal metabolism.
Offered every year. 4 sem. hrs.

Md. 202 A study of the principles of gastric analysis, duodenal analysis and fecal analysis.
Offered every year. 4 sem. hrs.

Md. 301 A comprehensive review of all preceding courses with further studies in techniques and interpretation of results. The following subjects are included:

Urinalysis	Gastro-Enterology
Hematology	Pathogenic Bacteriology
Serology	Basal Metabolism
Tissue Sections	Electrocardiography
Parasitology	Museum Preparation Technique
Fecal Analysis	Gross and Microscopic Photography

Offered every year. 4 sem.hrs.

Md. 302 Continuation of Md. 301
Offered every year. 4 sem.hrs.

Md. 390-391 This course is a practical application of principles of Medical Technology which have been covered in the preceding courses in the department. This course is of one year duration. It is taught in various local hospitals or private laboratories which have been approved by the American Medical Association and the American Society of Clinical Pathologists. Practical laboratory internship experience is allowed for this course. 16 sem. hrs.

DEPARTMENT OF MODERN LANGUAGES

Rev. Soniat, S.J., Chairman
Mr. DeMorelos Prof. Baker

A. French

Fr. 001-002 Basic French This course aims to give the essentials of French: pronunciation, grammar, reading. The semester hours credit will be allowed toward the completion of the total hours for graduation but not toward the fulfillment of the language requirements.
Offered every year. 6 sem. hrs.

Fr. 101-102 Intermediate A continuation of French 001-002: grammar, graded composition, reading, conversation. Prerequisite: French 001-002, or a passing grade in a qualifying examination. Offered every year. 6 sem. hrs.

Fr. 201-202 Précis of French Literature A rapid survey of the dramatic literature from the Middle Ages to modern times. Special emphasis given to the drama of the eighteenth and nineteenth centuries. Collateral reading and composition. Offered every year. 6 sem. hrs.

B. Spanish

Sp. 001-002 Elementary A course intended to give the essentials of grammar. The semester hours credit will be allowed toward the completion of the total hours required for graduation, but not toward the fulfillment of the language requirement. Offered every year. 6 sem. hrs.

Sp.101-102 Intermediate Review of grammar; composition and reading. Prerequisite: Sp. 001-002 or a passing grade in a qualifying examination. Offered every year. 6 sem. hrs.

Sp. 201-202 Survey A survey of Spanish literature. Collateral reading and composition. Offered every year.
6 sem. hrs.

C. German

Gr. 001-002 Elementary A course intended to give the essentials of grammar. The semester hours credit will be allowed toward the completion of the total hours required for graduation, but not toward the fulfillment of the language requirement. Offered every year. 6 sem. hrs.

Gr. 101-102 Intermediate Review of grammar; composition and reading. Prerequisite: Gr. 001-002 or a passing grade in a qualifying examination. Offered every year. 6 sem. hrs.

Gr. 201-202 Survey A survey of German literature. Collateral reading and composition. Offered every year. 6 sem. hrs.

DEPARTMENT OF PHILOSOPHY

Rev. Burke, S.J., Chairman

Rev. Shields, S.J. Rev. Mulherin, S.J.

Pl. 201 Dialectics Definition and division of philosophy; natural and scientific logic; material elements of logic; acts of the mind; nature of these acts, their kinds, properties, and external expression; formal elements of logic; forms of argumentation; fallacies. Offered every year. 2 sem. hrs.

Pl. 202 Epistemology The study of truth, logical and moral; falsity; the study of the mind in relation to truth; ignorance; doubt; opinion; nature and kinds of certitude; scepticism; agnosticism; materialism; positivism; idealism; rationalism; traditionalism; criteria of truth. Offered every year. 2 sem. hrs

Pl. 203 Ontology Being, its objective concept; essence; states of being; existence; possibility, internal and external; source of internal possibility; kinds of beings: substance and accident; distinction between nature and person; attributes of being; principle of causality. Offered every year. 2 sem hrs.

Pl. 204 Cosmology The origin of the world; monism; pantheism; materialism; creation: formation and finality of the world; the constructive properties of bodies; atomism; dynamism; hylomorphism; substantial changes; the laws of nature; miracles: definition, possibility, cognoscibility. Offered every year. 2 sem. hrs.

Pl. 301 Psychology Life in general; empirical observation of vital action; the power of self-motion; purposive activity; immanency of action; scholastic concept of life; the three essentially different grades of life; the prime principle of life; the theory of evolution; the nature of the soul; the origin of the soul; the immortality of the soul; union of soul and body. Offered every year. 2 sem. hrs.

Pl. 308 Theodicy Atheism, agnosticism; deism, theism; the existence of God; the essence of God; the divine attributes; God and the world; the materialistic and pantheistic concept of God. Offered every year. 2 sem. hrs.

Pl. 311-312 Ethics Definition, nature, object, and necessity of ethics; subjective and objective ultimate end of man; human action, its merit and imputability; norm of morality, true and false; man's duty to his Creator; man's duty to himself; man's duty to his neighbor; duties to property; society; domestic, civil, international, religious. Offered every year. 4 sem. hrs.

DEPARTMENT OF PHYSICS AND MATHEMATICS

Rev. Maring, S.J., Chairman
Prof. Strohmeyer

A. Physics

Ph. 201-203 General Physics The principles of mechanics, heat, sound, light, magnetism, electricity, and fundamentals of atomic physics constitute this two-semester course. Two lectures each week. Prerequisite: Mt. 101 or 103, and 105. 4 sem. hrs.

Ph. 202-204 General Physics Laboratory course. About fifty graded experiments in mechanics, heat, sound, light, magnetism, and electricity. This course is the companion to Ph. 201-203. Two laboratory periods per week. 4 sem. hrs.

B. Mathematics

Mt. 101 College Algebra Fundamental algebraic operations: addition, subtraction, multiplication, division, factoring, equations; theory of equations. This course fulfills the algebra requirements for all students except those who elect their field of concentration in mathematics or chemistry or physics. Offered every year. 3 sem. hrs.

Mt. 105 Plane Trigonometry Trigonometric functions of acute angles; use of the table of natural functions; the right triangle; trigonometric functions of any angle; functions of the sum of the difference of two angles; the oblique triangle; graphs of functions; trigonometric identities and equations; applications of trigonometry to algebra. Offered every year. 3 sem. hrs.

DEPARTMENT OF THEOLOGY

Rev. S. Ray, S.J. Rev. Rogero, S.J.

Th. 103 Moral Guidance A study of the principal laws which God has given to man to guide him in his moral conduct. Commandments 1 to 4. 2 sem. hrs.

Th. 104 Moral Guidance Continuation of the Commandments 5 to 10. With moral duties of judges, nurses, etc. 2 sem. hrs.

Th. 205 Apologetics Revelation; the Historicity of the Gospels; the Divinity of Christ. 2 sem. hrs.

Th. 206 Apologetics The Church of Christ; the primacy of Peter; the act of Faith. 2 sem. hrs.

Th. 301 Sacred Scripture The Bible in general; inspiration; Canon of the Bible; rules of interpretation; exegesis on selected parts of the New Testament: The Life of Christ. 2 sem. hrs.

Th. 302 Dogma. The chief articles of the Christian revelation are embodied in the Apostles Creed: God, The author and restorer of our Salvation; God, Unity of Nature, Trinity of Persons; the Fall of man; Christ the Redeemer; The Four Last Things. 2 sem. hrs.

Th. 303 The Sacraments A detailed study of the Sacraments; the nature, Author and minister of the Sacraments, Baptism, Confirmation, Holy Eucharist, Penance, Extreme Unction, Matrimony and Holy Orders. 2 sem. hours.

Th. 305 Christian Marriage Notions on morality; the Church's part in determining morality; the power of the State and Church over marriage; prenuptial requirements; premarital chastity; general preparation for marriage; rights and duties of married people; birth control; divorce. 2 sem. hrs.
